## REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Management and Shareholders of  
Banco Daycoval S.A.

### **Introduction**

We have reviewed the individual and consolidated interim financial information of Banco Daycoval S.A. (“Bank”), included in the Interim Financial Information Form (ITR) for the quarter ended September 30, 2024, which comprises the balance sheet as at September 30, 2024 and the related statements of income and of comprehensive income for the three- and nine-month periods then ended, and of changes in equity and of cash flows for the nine-month period then ended, including the explanatory notes.

Management is responsible for the preparation of the individual and consolidated interim financial information in accordance with accounting practices adopted in Brazil, applicable to institutions authorized to operate by the Central Bank of Brazil (BACEN), as well as for the presentation of such information in accordance with the standards issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of Interim Financial Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

### **Scope of review**

We conducted our review in accordance with Brazilian and International Standards on Review of Interim Financial Information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the standards on auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Conclusion on the individual and consolidated interim financial information**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual and consolidated interim financial information included in the interim financial information referred to above was not prepared, in all material respects, in accordance with accounting practices adopted in Brazil, applicable to institutions authorized to operate by the BACEN, and presented in accordance with the standards issued by the CVM.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited (“DTTL”), its global network of member firms, and their related entities (collectively, the “Deloitte organization”). DTTL (also referred to as “Deloitte Global”) and each of its member firms and related entities are legally separate and independent entities, which cannot obligate or bind each other in respect of third parties. DTTL and each DTTL member firm and related entity is liable only for its own acts and omissions, and not those of each other. DTTL does not provide services to clients. Please see [www.deloitte.com/about](http://www.deloitte.com/about) to learn more.

Deloitte provides industry-leading audit and assurance, tax and legal, consulting, financial advisory, and risk advisory services to nearly 90% of the Fortune Global 500® and thousands of private companies. Our people deliver measurable and lasting results that help reinforce public trust in capital markets, enable clients to transform and thrive, and lead the way toward a stronger economy, a more equitable society, and a sustainable world. Building on its 175-plus year history, Deloitte spans more than 150 countries and territories. ## Other matters

### *Statements of value added*

The interim financial information referred to above includes the individual and consolidated statements of value added (DVA) for the nine-month period ended September 30, 2024, prepared under the responsibility of the Bank's Management, the presentation of which in the interim financial information is required by the standards issued by the Brazilian Securities and Exchange Commission - CVM applicable to the preparation of Interim Financial Information (ITR). These statements were subject to review procedures performed together with the review of the Interim Financial Information (ITR) to reach a conclusion on whether they are reconciled with the individual and consolidated interim financial information and accounting records, as applicable, and whether their form and content are in accordance with the criteria set out in technical pronouncement CPC 09 - Statement of Value Added. Based on our review, nothing has come to our attention that causes us to believe that these statements of value added were not prepared, in all material respects, in accordance with CPC 09 and consistently with the accompanying individual and consolidated interim financial information taken as a whole.

### *Consolidated interim financial information*

The consolidated interim financial information for the quarter ended September 30, 2024, which has been prepared in accordance with accounting practices adopted in Brazil applicable to institutions authorized to operate by the BACEN, is being presented as supplemental information, as set forth in Art. 77 of CMN Resolution 4,966, to the consolidated interim financial statements prepared in accordance with international accounting standard IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), which up to this date have not been prepared and disclosed by the Bank.

The accompanying individual and consolidated interim financial information has been translated into English for the convenience of readers outside Brazil.

INVESTOR RELATIONS

---

## Highlights 3Q24

- ❑ The third quarter of 2024 was marked by continued strong performance, demonstrating our ability to consistently deliver results even in challenging circumstances. This highlights our effective execution and robust asset-liability management capabilities.
- ❑ Recurring Net Income reached R\$ 1,158.2 million in the first nine months of 2024, an increase of 34.0% from the previous year. In the third quarter of 2024, recurring net income was R\$ 409.6 million, an increase of 4.4% from previous quarter and 59.9% from previous year. The return on equity (recurring ROAE) was 23.4% in the quarter and 23.3% in the nine months of 2024.
- ❑ Net income for the third quarter of 2024 grew by 2.9% compared to the second quarter, reaching R\$ 450.6 million, reflecting a 40.5% increase from the previous year. In the first nine months of 2024, the net income was R\$ 1,256.7 million, up 61.2% from the previous year. The return on equity (ROAE) reached 25.7% in the third quarter of 2024 and 25.2% in the first nine months of 2024.
- ❑ The expanded loan portfolio reached R\$ 56.7 billion, a reduction of 3.0% in the third quarter of 2024 and an increase of 7.0% from the previous year, due to a decrease in the corporate portfolio volume during the period.
- ❑ In the companies segment, the portfolio totaled R\$ 38.4 billion, a slight decrease of 4.4% in the third quarter of 2024 compared to the second quarter, mainly due to lower demand and a consequent reduction in the flow of receivables purchases. The SME (Small and Medium Enterprises) portfolio continues to show sustainable growth, aligned with the Banco Daycoval's business strategy.
- ❑ The leasing loan continues to show positive growth, with an increase of 13.9% compared to the same period last year, now representing about 9% of the companies loan portfolio and achieving an 18% market share in the Brazilian leasing market.

## Highlights 3Q24

- ❑ In the retail segment, the payroll loan portfolio reached R\$ 15.6 billion at the close of the third quarter of 2024, reflecting a 15% year-on-year growth. However, on a quarterly basis, there was a slight decline, primarily due to strong market portability and the compressed margins on the product. Average monthly origination remained stable at R\$ 1.1 billion.
- ❑ Auto loans reached R\$ 2.4 billion, recording an increase of 11% compared to the same period of the previous year. This growth reflects the gradual recovery in sales in the used vehicle segment, as well as a reduction in default levels.
- ❑ The bank's total funding reached R\$ 56.7 billion in the third quarter of 2024, reflecting a reduction of 4.8% compared to the second quarter of 2024 and an increase of 9.2% compared to the previous year.
- ❑ The low cost observed in Local Securities issues has facilitated the extension of our liabilities. We have focused on fundraising through the issuance of Local Securites with institutional investors to the detriment of time deposit fundraising.
- ❑ The NPL rate (loans overdue more than 90 days over loan portfolio) remained stable in the third quarter of 2024 (2.0%) and showed a reduction of 0.5 percentage point from the previous year. An improvement in the asset quality is highlighted within the corporate and auto loan segments.
- ❑ Provision for loan losses reached R\$ 1,871.9 million in the third quarter of 2024, representing an increase of 9.0% compared to the second quarter of the year and a reduction of 7.4% from the previous year, in line with our balance sheet protection strategy. In this sense, the coverage ratio (balance of provisions for doubtful debts/loans overdue for more than 90 days) increased during the period, ending the third quarter at 166.5%.

## Highlights 3Q24

- ❑ In line with the strategy of diversifying and expanding products and services, service revenues reached R\$ 134.2 million in the third quarter of 2024, an increase of 18.1% compared to the same period last year. The performance of Capital Markets Services portfolio once again stood out, registering a 46.8% increase over the past 12 months, totaling R\$ 132.4 billion in assets under services, serving 994 investment funds and 199 asset manager.
- ❑ The total issuance volume in the Debt Capital Markets (DCM) area accumulated in the nine months of 2024 reached R\$ 5.7 billion, highlighting the growing importance of this segment in our diversification strategy and business model aligned with our clients' interests.
- ❑ The amounts managed by Daycoval Asset Management closed 3Q24 with an increase of 20.7% over the past 12 months and 4.6% compared to the previous quarter. Currently, it manages 99 funds, representing a total of R\$ 18.1 billion in assets under management.
- ❑ Finally, with the aim of fostering continuous growth, Banco Daycoval continues to invest in enhancing its team, ending the quarter with 3,774 employees.

## Investor Relations

### 3Q24 Results

November/06/2024

# 01

## **Banco Daycoval reaches AA+ (bra) on the national scale and BB on the global scale by Fitch Ratings.**

The upgrade reflects resilient financial performance throughout economic cycles, accompanied by the strengthening of its risk profile evidenced by the diversification and expansion of its product base, especially in comparison to its peers. According to the agency, Daycoval demonstrated disciplined growth in its credit portfolio, maintaining a conservative risk appetite, resulting in improved asset quality and increased profitability.

# 02

## **BMG Seguros acquisition**

With the aim of strengthening the offer of complementary products in the companies segment, the acquisition will be carried out through our insurance company, Dayprev Vida e Previdência S.A.. The completion of the acquisition is subject to approval by BACEN and SUSEP. Already approved by CADE.

***“The transaction is part of the Bank's strategy to expand products and services based on diversification, opportunity, and maintaining long-term relationships with clients” - announced to the market regarding the acquisition of BMG Seguros.***

# 03

**Daycoval**  
Corretora de valores

## **Daycoval Corretora de Valores**

In the third quarter of 2024, Banco Daycoval, through the new license of Daycoval CTVM, resumed the operation that was part of its origins in the 1970s, becoming a Full Participant (PNP) on B3.

Daycoval CTVM is integrated into our business model, focused on diversifying products and services, complementing our ecosystem in the areas of capital markets and investments.

(1) Net of tax adjustments (IR/CSLL)

- As a result of the implementation of *hedge accounting* policies over time, we observed a progressive reduction in accounting and recurring adjustment.

## Recurring Adjusted Net Interest Margin (NIM-AR)

R\$ million

- The net interest margin (NIM-AR) reached 9.2% in the third quarter of 2024, an increase of 0.4 percentage point compared to the second quarter of 2024 and 0.6 percentage point compared to the same period of the previous year. This result is attributed to the prioritization of operations with robust collateralization and adequate profitability, in addition to the favorable evolution of spreads.

## Companies Portfolio

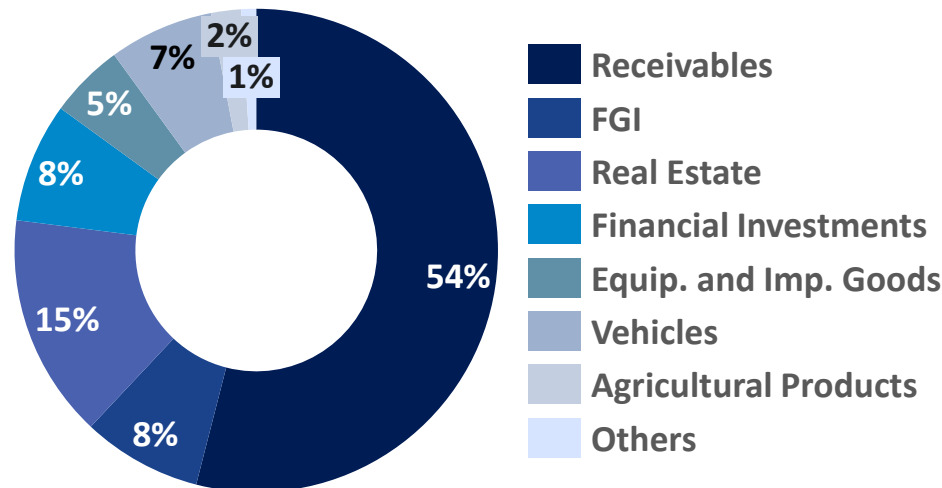

- The Companies portfolio closed the third quarter of 2024 at R\$ 38,406.2 million, a decrease of 4.4% compared to the second quarter of 2024, mainly influenced by the decline in working capital and receivables purchase products. In the annual comparison, growth was observed in avals and sureties and leasing portfolio.

## Highlights of companies loan portfolio in 3Q24:

- The Corporate Securities portfolio reached R\$ 4,101.3 million in the third quarter of 2024, an increase of 93.7% compared to the same period last year, reflecting the greater dynamism and volume of operations related to NCs, CRIs, CRAs, Debentures products, among others.
- The Receivables Purchase product closed the quarter at R\$ 8,363.8 million, a reduction of 21.6% compared to the second quarter of 2024, mainly influenced by lower demand in the quarter.

## Outstanding balance by revenues:

## Recovered Loans

R\$ million

- The significant increase observed in the volume of recovered credits in the corporate portfolio in the third quarter of 2024 is due to the recovery of write-off credits related to a company in the large corporate segment.

The accompanying notes are an integral part of these interim financial statements.

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE QUARTER AND NINE-MONTH PERIOD ENDED SEPTEMBER 30, 2024  
(In thousands of Brazilian reais - R\$, unless otherwise stated)**

**1 - GENERAL INFORMATION**

Banco Daycoval S.A. (“Bank” or “Daycoval”), headquartered at Avenida Paulista, 1,793, in the City and State of São Paulo, is a publicly-held entity, organized as a full-service bank authorized to operate commercial, foreign exchange, investment, and lending and financing portfolios and, through its direct and indirect subsidiaries, also leasing portfolio, asset management, life insurance, pension plans and provision of services. The Bank is part of Daycoval Conglomerate and conducts its businesses on an integrated basis.

**2 - INTERIM INDIVIDUAL AND CONSOLIDATED FINANCIAL STATEMENTS**

**b) Presentation**

The Bank's individual and consolidated interim financial statements, which include its foreign branch, direct and indirect subsidiaries and the investment funds in which there is retention of risks and rewards, have been prepared in accordance with accounting practices adopted in Brazil, applicable to institutions authorized to operate by the Central Bank of Brazil, and is in conformity with the accounting guidelines set out in the Brazilian Corporate Law (Law 6,404/76), and the amendments introduced by Law 11,638/07 and Law 11,941/09, for the recognition of transactions including, when applicable, the rules and instructions from the National Monetary Council (CMN), the Central Bank of Brazil (BACEN) and the Standard Chart of Accounts for Financial Institutions (COSIF), the Brazilian and Securities Exchange Commission (CVM), the National Private Insurance Council (CNSP), the Private Insurance Superintendence (SUSEP) and the Accounting Pronouncements Committee (CPC).

As prescribed by CMN Resolution 4,818/20 and BCB Resolution 2/20 which revoked CMN Resolution 4,720/19 and BACEN Circular Letter 3,959/19, respectively, the financial institutions and other institutions authorized to operate by BACEN, must prepare their financial statements in accordance with the criteria and procedures set out in these regulations, which address the disclosure of interim, semiannual and annual financial statements, as well as their content, which include the balance sheets and statements of income, of comprehensive income, of cash flows and of changes in equity, the notes to the financial statements and the disclosure of information on non-recurring results.

The individual and consolidated Interim Financial Statements were approved by Management on November 6, 2024.

Daycoval adopts presentation criteria in its financial statements so as to represent the economic substance of its transactions and in accordance with financial reporting criteria set out in BCB Resolution 2/20, and additional regulations.

**b) Process of convergence with International Financial Reporting Standards (“IFRS”)**

As part of the process of convergence with the International Financial Reporting Standards (“IFRS”), the Accounting Pronouncements Committee (“CPC”) has issued pronouncements related to the international accounting convergence process that have been approved by the CVM but not all of them have been ratified by the BACEN. Accordingly, in the preparation of the interim financial statements, the Bank has adopted the following pronouncements that have been approved by the BACEN:

| <b>Pronouncements issued by the CPC</b>                                   | <b>CMN Resolution</b> |
|---|-----------------------|
| CPC 00 (R2) - Conceptual Framework for Financial Reporting                | 4,924/21              |
| CPC 01 (R1) - Impairment of Assets  | 4,924/21              |
| CPC 03 (R2) - Statements of Cash Flows                                    | 4,818/20              |
| CPC 05 (R1) - Related-party Disclosures                                   | 4,818/20              |
| CPC 10 (R1) - Share-based Payment   | 3,989/11              |
| CPC 23 - Accounting Policies, Changes in Accounting Estimates, and Errors | 4,924/21              |
| CPC 24 - Events After the Reporting Period                                | 4,818/20              |
| CPC 25 - Provisions, Contingent Liabilities and Contingent Assets         | 3,823/09              |
| CPC 33 (R1) - Employee Benefits   | 4,877/20              |
| CPC 41 - Earnings per Share   | 4,818/20              |
| CPC 46 - Fair Value Measurement   | 4,924/21              |
| CPC 47 Revenue from Contracts with Customers                              | 4,924/21              |

All relevant information in the Individual and Consolidated Interim Financial Statements of the Bank, and only such information, is being disclosed and corresponds to the information used by the Bank's Management in managing the Bank.

**c) Consolidation**

In the process of consolidation of the interim financial statements, the balances of assets, liabilities and results from the transactions among the Bank, its foreign branch, its direct and indirect subsidiaries and the investment funds acquired with substantial retention of risks and rewards, were eliminated, and the balances of profit and equity attributable to controlling and noncontrolling interests were recorded in separate line items.

The individual and consolidated interim financial statements include the Bank and the following entities:

|  | Ownership interest - % |            |
|--|------------------------|------------|
|  | 09/30/2024             | 12/31/2023 |

*(1) The Fund was consolidated if Daycoval substantially assumes or retains the risks and rewards.*

**d) New standards issued by the BACEN effective in the future:**

**i. CMN Resolution 4,966/21 as subsequently amended**

Effective as from January 1, 2025, CMN Resolution 4,966/21 as amended by CMN 5,100/23, establishes new criteria applicable to financial instruments, including the designation and recognition of hedging relationships (hedge accounting) to be adopted by financial institutions and other institutions authorized to operate by the Central Bank of Brazil, including: (i) classification, measurement, recognition, and derecognition of financial instruments; (ii) recognition of allowance for expected losses associated with credit risk; (iii) adjustment of financial instruments at the contractual effective interest rate; and (iv) recognition of interest for past due financial assets.

To supplement CMN Resolution 4,966/21, BCB Resolution 352/23 was issued, which provides for the accounting concepts and criteria applicable to financial instruments, as well as for the designation and recognition of hedge relationships (hedge accounting) and on the accounting procedures for the definition of cash flows from financial assets as payment of principal and interest only; the application of the methodology for determination of the effective interest rate of financial instruments; the recognition of allowance for losses associated with the credit risk and disclosure of information relating to financial instruments in explanatory notes. The BCB Regulatory Instructions 426 to 433, which change the list of accounts of the Accounting Charts of Institutions Regulated by the Central Bank of Brazil (Cosif), were also disclosed.

The Implementation Plan for adoption of the definitions set out in CMN Resolution 4,966/21, established by Daycoval, is in progress and Management is monitoring this process and the potential impacts on the Interim Financial Statements.

**ii. CMN Resolution 4,975/21 as subsequently amended**

Provides for the accounting criteria applicable to leasing operations by financial institutions and other entities authorized to operate by the Central Bank of Brazil. This Resolution becomes effective on January 1, 2025 and Management will carry out an assessment to determine the impacts of its adoption.

**iii. Law 14,467. of November 16, 2022**

Effective beginning January 1, 2025, it changes the tax treatment applicable to losses incurred with operations with credit granting characteristics arising from the activities of financial institutions and other institutions authorized to operate by the Central Bank of Brazil, with the deduction of losses incurred in determining the Taxable Income and the CSLL tax basis, its main change.

### 3 - MATERIAL ACCOUNTING POLICIES

#### a) Functional and reporting currency, foreign currency-denominated transactions and share of profit (loss) of foreign entities:

##### i. Functional and presentation currency

Daycoval's financial statements are presented in Brazilian reais (R\$), which is the Bank's functional and reporting currency. As prescribed by CMN Resolution 4,524/16, Daycoval has defined that the functional and reporting currency for each of its direct and indirect subsidiaries, including foreign entities, will also be the Brazilian real (R\$).

##### ii. Translation of foreign-currency denominated transactions

If foreign investees conduct transactions in a currency different from their respective functional currencies, these transactions will be converted by applying the exchange rates of the respective trial balance or balance sheet for monetary items, assets and liabilities stated at fair value and for items not classified as monetary items. For other cases, the exchange rates on the transaction date are applied.

##### iii. Share of profit (loss) of foreign entities

The share of profit (loss) of foreign entities, the functional currency of which is defined in item "i" above, is recognized directly in Daycoval's income statements, in "Share of profit (loss) of subsidiaries and associates".

#### b) Recording of income and expenses

Income and expenses are recorded on the accrual basis. Fixed-rate transactions are stated at the final amount, and income and expenses for future period are recognized as a reduction of the related assets and liabilities. Finance income and costs are recorded on a pro rata basis and calculated based on the exponential method, except those related to discounted notes or foreign transactions, which are calculated under the straight-line method. Floating-rate transactions or those indexed to foreign currencies are adjusted through the balance sheet date.

#### c) Cash and cash equivalents

Cash and cash equivalents are represented by cash and bank deposits, recorded in line items 'Cash', 'Interbank accounts', and 'Securities - own portfolio', with original investment term of 90 days or less; the risk of change in their fair value is considered immaterial.

The breakdown of cash and cash equivalents is presented in Note 4.

#### d) Financial instruments

##### i. Interbank accounts

Repurchase agreements are stated at cost, plus income earned through the balance sheet date, less allowance for impairment, when applicable.

The breakdown of Interbank accounts is presented in Note 6.

##### ii. Securities

Securities are stated at cost plus income earned, as follows: (i) fixed-income securities are adjusted at the applicable interest rate based on the respective maturities; and (ii) investments in investment funds are adjusted based on the share price informed by the fund managers.

Securities are classified in conformity with BACEN Circular Letter 3,068/01 into one of the following categories:

- Trading securities - securities acquired for the purpose of being actively and frequently traded, adjusted to fair value as a contra-entry to profit or loss.
- Available-for-sale securities - securities not acquired for the purpose of being actively and frequently traded, which Management does not intend to hold to maturity. The adjustments to fair value (unrealized gains and losses) are recorded as a separate component of equity, net of taxes. These gains and losses are recognized in profit or loss when realized.
- Held-to-maturity securities - securities that the Bank has the positive intent and ability to hold to maturity and stated at cost, plus income earned, as a contra-entry to profit or loss.

The breakdown and classification of securities are presented in Note 7.

**iii. Derivative financial instruments (assets and liabilities)**

Derivatives consist of options, forwards, futures, and swaps and are recorded in conformity with BACEN Circular Letter 3,082/02, which provides for the adoption of the following criteria:

- Option transactions - premiums received or paid are recorded at fair value in caption 'Derivative financial instruments' in assets or liabilities, respectively, until the option is exercised, and recorded as a decrease or increase in the cost of the asset subject to the option, for the exercise of the option, or as income or expense in the event of non-exercise.
- Futures - daily adjustments are recorded at fair value in line item 'Trading account' in assets or liabilities and allocated daily to profit or loss as income (when relating to gains) or expense (when relating to losses).
- Currency swap and forward transactions (NDF) - differential receivable or payable is recorded at fair value in caption 'Derivative financial instruments' in assets or liabilities, respectively, and allocated to profit or loss as income (when relating to gains) or expense (when relating to losses).

Derivative transactions are stated at fair value, with gains and losses recorded as described below:

- Derivatives not qualified as hedge - in income or expense in profit or loss.
- Derivatives qualified as hedge - classified as market risk hedge or cash flow hedge.

Market risk hedges are used to offset the risks arising from the exposure to changes in the fair value of the hedged item, with gains or losses recorded as a contra-entry to income or expense in profit or loss.

The breakdown of derivative financial instruments recorded in assets and liabilities accounts and in memorandum accounts is presented in Note 8.

**iv. Fair value measurement**

The methodology applied to measure the fair value of financial assets and derivative financial instruments measured at fair value is based on the economic scenario and on the pricing models designed by Management, which include capturing average prices charged in the market, applicable to the balance sheet date. Accordingly, upon the financial settlement of these items, the results may be different from estimates.

The model of fair value measurement of financial instruments assets and liabilities, including derivatives, designed by the Management, takes into consideration the economic scenario, the collection of indicators and prices charged in the market, applicable to these instruments at the balance sheet date. The value of settlement of these financial instruments may be different from estimates.

**e) Lending operations, other transactions with loan and lease characteristics and allowance for losses associated with the credit risks of these instruments**

Leasing operations were reclassified so as to reflect its financial position in conformity with the financial method.

Lending and leasing operations are classified based on Management's risk assessment, considering the past experience with prior borrowers, the risk rating of such borrowers and their guarantors, the economic environment, and specific and overall portfolio risks, pursuant to CMN Resolution 2,682/99, which requires a periodic analysis of the portfolio and its classification into nine risk rating levels from AA (minimum risk) to H (maximum risk - loss).

Additionally to the minimum levels of provision mentioned in Resolution 2,682/99, and subsequent amendments, Daycoval also established a provision for additional credit risk, calculated on the basis of a credit risk assessment and monitoring from time to time revalued and approved by Management.

The allowance for losses associated with the credit risk is established in an amount sufficient to cover probable losses and in accordance with standards and guidelines from CMN and Bacen.

Also according to CMN Resolution 2,682/99, and subsequent amendments, the income from lending operations past due equal to or for more than 60 days, regardless of the risk rating, is only recognized when received, and H-rated loans remain as such for 180 days, after which period they are written off against the existing allowance and are controlled in memorandum accounts, no longer being recorded in the balance sheet.

Renegotiated transactions are held at least at the same level of risk in which they were classified on the date of renegotiation. In case of significant amortization of the transaction or when new significant or observable facts justify the change of risk level, the transaction can be reclassified into a lower risk category.

Lending operations, other transactions with loan and lease characteristics, and leasing transactions are measured at amortized cost.

The breakdown of lending operations, other transactions with loan and lease characteristics and leasing operations and that of the allowance for losses associated with the credit risks of these instruments are presented in Note 9.

**f) Foreign exchange transactions (gains and losses)**

Foreign exchange transactions are stated at realizable values, plus income and exchange rate changes calculated on a daily pro rata basis.

The breakdown of foreign exchange transactions (gains and losses) is presented in Note 10.

**g) Prepaid expenses**

Prepaid expenses related to commissions paid to bank correspondents are controlled by contract and accounted for as expense in line item 'Other administrative expenses'.

Prepaid expenses are presented in Note 12.b.

**h) Investments in subsidiaries**

Investments in subsidiaries and associates in which the Bank has a significant influence or interest of 20% or more of the voting capital, are accounted for under the equity method of accounting.

The breakdown of investments in subsidiaries and associates is presented in Note 14.

**i) Other investments**

Other investments are stated at cost, less allowance for loss, when applicable.

**j) Property and equipment in use**

Stated at acquisition cost, monthly adjusted by their respective accumulated depreciation, calculated under the straight-line method in accordance with the estimated useful and economic life of the assets and adjusted by impairment, as applicable.

The breakdown of property and equipment for use is presented in Note 15.a.

**k) Property and equipment for operating lease**

Leased assets are stated at acquisition cost, less accumulated depreciation. Depreciation is calculated on a straight-line basis, with a 30% reduction benefits in the normal useful lives of assets for leasing operations carried out with legal entities, provided for by prevailing legislation.

The breakdown of property and equipment for operating lease is shown in Note 15.b.

**l) Held-for-sale non-financial assets**

Held-for-sale non-financial assets, pursuant to CMN Resolution 4,747/19, must be classified as:

- Own - which expected realization is either through sale, are available for immediate sale and which disposal is highly probable within no more than one year; or
- Received – which receipt by the institution for settlement of financial instrument is difficult or doubtful nor intended for own use.

Held-for-sale non-financial assets are show in Note 12.a.

**m) Impairment of non-financial assets**

The impairment of non-financial assets is recognized as a loss when the carrying amount of an asset or a cash-generating unit is higher than its recoverable or realizable value. A cash-generating unit is the smallest identifiable group of assets that generates cash flows substantially independent from other assets or groups of assets. Impairment losses are recognized in profit or loss for the period in which they are identified, when applicable.

Non-financial assets, except those recorded in line items 'Other assets' and 'Current and deferred tax credits', are tested for impairment at least annually to determine if there is any indication that such assets might be impaired, pursuant to Note 12.a.

**n) Funding**

The deposits, issuance of securities in Brazil and abroad and borrowings and onlendings are recognized at initial value, plus interest and financial charges incurred up to the balance sheet date, calculated on a pro rata basis. Funds from acceptance of securities abroad and foreign onlendings are also increased by the exchange variation calculated at the foreign currency quote announced by BACEN at the balance sheet date.

Funds from issuance of securities and foreign onlendings, subject to hedge accounting, are measured at fair value at the balance sheet date, and the effects of this measurement are recognized in the income statements.

The breakdown of funding is presented in Note 16.

**o) Provisions, contingent assets, and liabilities and legal obligations (tax and labor)**

The recognition, measurement and disclosure of the provisions for contingent assets and liabilities and legal obligations are carried out in accordance with the criteria established by Technical Pronouncement CPC 25 – Provisions, Contingent Liabilities and Contingent Assets approved by CMN Resolution 3,823/2009 and BCB Regulatory Instruction 319/22, as follows:

**i. Provisions**

Recognized when there is a present obligation as a result of past events, where it is likely that an outflow of funds will be required to settle an obligation and which can be reliably estimated. Daycoval considers the opinion of its legal advisors and Management for the recognition of the provisions.

**ii. Contingent assets**

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not fully within the control of the entity. A contingent asset is not recognized in the financial assets, except when there is sufficient evidence that its realization is certain, otherwise, it is disclosed in the notes to the financial statements when the inflow of economic benefits is probable.

**iii. Contingent liabilities**

Contingent liabilities are not recorded as their existence will be confirmed only upon the occurrence or not of one or more uncertain future events that are beyond Daycoval's control. Contingent liabilities do not satisfy the criteria for their recognition as they are considered as possible losses and disclosed in the notes to the interim financial information. Contingent liabilities assessed as remote loss are not recognized and disclosed.

**iv. Legal obligations (tax and social security)**

Legal obligations (tax and social security) refer to lawsuits challenging the legality and constitutionality of certain taxes and contributions. The amount under litigation is determined, accrued and adjusted on a monthly basis.

The breakdown of contingent assets and liabilities and legal obligations is presented in Note 18.

**p) Taxes**

Tax credits from income tax and social contribution on net profit, calculated on temporary additions, are recorded in line item 'Current and deferred tax credits', and the provision for deferred tax liabilities on excess depreciation, adjustments to fair value of marketable securities, monetary adjustment of escrow deposits, among others, are recorded in 'Current and deferred taxes', and excess depreciation is subject to the income tax and social contribution rate.

Tax credit arising from temporary differences on the fair value measurement of certain financial assets and financial liabilities, including derivative agreement, provisions for tax, civil and labor contingencies and allowances for loan losses, are recognized only when all requirements for its recognition, established by CMN Resolution 4,842/20, are met.

Taxes are recognized in the statement of income, except when they refer to items recognized directly in equity. Deferred taxes, comprising tax credits and deferred tax liabilities, are calculated on the temporary differences between the tax base of assets and liabilities and their carrying amounts.

The calculation of income tax and social contribution and the breakdown of tax credits and deferred tax liabilities are respectively presented in Notes 19.a.i and 19.d.

The realization of tax credits is presented in Note 19.e.

**q) Earnings per share**

Earnings per share are calculated based on criteria and procedures set out in Technical Pronouncement CPC 41 - Earnings per Share, considering the provisions applicable to financial institutions, as prescribed by CMN Resolution 4,818/20.

Earnings per share are shown in Note 20.e.

**r) Interest on capital**

CMN Resolution 4,872/20, which came into effect beginning January 1, 2022, establishes procedures for the recognition of interest on capital, which must be recognized after declared or proposed and if representing a present obligation at the balance sheet date.

Dividends and interest on capital declared are recognized in current liabilities in line item "Social and statutory" and dividends proposed and not yet approved are recognized in equity, in line item 'Special earnings reserves'.

Interest on capital is presented in Note 20.c.

**s) Use of accounting estimates**

The preparation of Daycoval's interim financial information requires Management to make estimates and adopt assumptions that, in its best judgment, affect the reported amounts of certain assets and liabilities (financial or not), revenues, expenses and other transactions, such as:

- i. Depreciation rates of property and equipment items and lease property and equipment;
- ii. Amortization of deferred assets;
- iii. Allowance for loan and lease losses;
- iv. Measurement of financial instruments; and
- v. Provisions for contingencies.

The actual settlement amounts of these financial or non-financial assets and liabilities could differ from those estimates.

**t) Non-recurring profit or loss**

Non-recurring profit or loss is the profit or loss:

- i. Arising from operations/transactions carried out by the Bank that are not directly related to its core activities;
- ii. Indirectly related to the Bank's core activities; and
- iii. Arising from operations/transactions not expected to be frequently carried out in future years.

The breakdown of non-recurring profit or loss is shown in Note 21.k

**4 - CASH AND CASH EQUIVALENTS**

|   | Bank             |                  | Consolidated     |                  |
|---|------------------|------------------|------------------|------------------|
|   | 09/30/2024       | 12/31/2023       | 09/30/2024       | 12/31/2023       |
| Cash  | 749,947          | 592,610          | 750,433          | 593,175          |

(1) The fair value of securities was calculated based on the prices and rates prevailing as at September 30, 2024 and December 31, 2023, as disclosed by the Brazilian Financial and Capital Markets Association (ANBIMA), the managers of the investment fund in which the Bank invests, the B3 S.A. - Brasil, Bolsa, Balcão, and other market makers in the case of securities acquired abroad, and, when applicable, based on discount cash flow models.

(2) Securities linked to guarantees refer to securities conducted on B3 S.A. - Brasil, Bolsa, Balcão.

(3) Rural product notes, debentures, certificates of agribusiness receivables, certificates of real estate receivables, and commercial notes are stated net of the allowance for losses associated with the credit risk. As at September 30, 2024, the balance of the allowance is R\$81,771 pursuant to Note 9.b.ii (R\$13,727 as at December 31, 2023).

(4) As at September 30, 2024, unrealized gain (loss) on available-for-sale securities totaled negative mark-to-market of R\$13,437 for the Bank and R\$12,719 on a consolidated basis (R\$19,514 for the Bank and R\$20,793 on a consolidated basis as at December 31, 2023), which are recognized in equity, in line item 'Other comprehensive income', net of taxes, totaling R\$6,673 (R\$12,013 as at December 31, 2023).

## 8 - DERIVATIVE FINANCIAL INSTRUMENTS

The Bank conducts derivative transactions to meet own or its clients' needs, which are recognized in the balance sheet, profit or loss, and memorandum accounts.

Derivatives used are properly approved based on the product use policy. Pursuant to this policy, prior to the implementation of each product, all aspects should be analyzed, such as: objectives, methods of use, underlying risks and appropriate supporting operational infrastructure.

The credit and market risk components of derivatives are monitored on a daily basis. Specific limits are set for derivative transactions for clients and also for registration and clearing houses. Each limit is managed using a system that consolidates exposures by counterparty. Any discrepancies are promptly identified and addressed for immediate solution.

The market risk of derivatives is managed based on a prevailing risk policy, pursuant to which potential risks of price fluctuations in the financial markets are centralized in the Treasury department, which provides hedge for the other departments.

The main derivative financial instruments contracted by Daycoval as at September 30, 2024 and December 31, 2023, are as follows:

- Future market contracts - commitments to purchase or sell, interest rates and foreign currencies on a future date at a given price or yield and can be settled in cash or by physical delivery of the underlying asset of the contract. The notional amount represents the notional amount of the contract. The adjustments for changes in prices of the underlying assets of the contract are settled daily.
- Forward contracts - forward exchange contracts represent contracts for currency exchange at a price contracted on an agreed-upon future settlement date. There may be only the physical delivery or only the financial settlement of the difference between the prices of currencies underlying the contract (Non deliverable forwards (NDFs)).
- Index swap contracts (Swaps) - these are commitments to settle in cash on a date or future dates (in case there is more than one payment flow) the difference between both financial indicators stipulated and different ones (interest rates, foreign currency, inflation indexes, among others) on a notional amount of principal.
- Options - options contracts subject the purchaser, by paying a premium, and the seller (writer) to the obligation, by receiving a premium, to purchase or sell a financial asset (interest rates, shares, currencies, among others) in a term limited to a contracted price.

### i Hedge transactions

The hedging strategy is determined based on the Bank's operating risk exposure limits. Whenever its transactions have risk exposures above the preset limits, which might result in significant fluctuations in the Bank's profit or loss, the Bank uses derivatives, contracted in the organized or over-the-counter market, to hedge against such risks, according to the statutory hedging rules set forth in BACEN Circular Letter 3,082/02.

The hedge instruments seek to mitigate market, currency fluctuation and interest rate risks. According to the market liquidity, the maturity dates of hedge instruments are the closest possible to the dates of the financial flows of the hedged transactions so as to ensure an efficient hedge.

The Bank has a market risk hedge structure, as follows:

- In order to mitigate the exposure to the interest rate in the future cash flows, given the fixed nature of the loan and lease transactions, hedged items, recorded in line item 'Vehicle financing', 'Payroll-deductible loans', and 'Leases' (Note 9.b). The hedge framework of these transactions was recognized by associating future interest rate market operations (DI futures) for each one of the hedged flows, either of interest or principal and interest;
- Designed to offset the risks arising from the exposure to changes in the fair value relating to the fluctuation of foreign currency (US dollar and euro fluctuation) and of the Libor interest rate on foreign borrowings - (hedged items) recorded in 'Payables for securities issued abroad' (Note 16.b) and 'Payables for foreign borrowings' (Note 16.b). The accounting hedge framework for these transactions was established by associating a swap cash flow contract for each borrowing repayment flow, either of interest or principal plus interest, and the Bank's long position is identical to the interest rates on borrowings agreements.

The table below summarizes the market risk hedge framework:

| 09/30/2024                         |            |                 |                  | Change in equity |                  | Effectiveness |
|------------------------------------|------------|-----------------|------------------|------------------|------------------|---------------|

(1) As at September 30, 2024, includes losses of R\$162,514 (gains of R\$190,240 as at December 31, 2023) relating to the fair value adjustment of vehicle financing operations, subject to hedge accounting, both for the Bank and on a consolidated basis. This amount is not being included in the total of lending operations presented in the subsequent notes.

(2) As at September 30, 2024, includes losses of R\$3,526 (gains of R\$41,786 as at December 31, 2023) relating to the fair value adjustment of leases operations, subject to hedge accounting on a consolidated basis. This amount is not being included in the total of leasing operations presented in the subsequent notes.

(3) The leasing portfolio is comprised of finance and operating lease transactions at present value.

(4) Private securities are comprised of rural product notes, debentures, certificates of agribusiness receivables, certificates of real estate receivables and commercial notes.

(5) Includes transactions presented net of honors received from the FGI.

b) Breakdown of credit portfolio and extended credit portfolio

i. By segment, type of transaction and risk level

(1) Transactions without past-due installments and/or with installments past due up to 14 days.

(2) Transactions with at least one installment past due for more than 14 days.

(3) Private securities are presented with their respective maturities.

(4) Allowance for loan losses associated with credit risk, considering the minimum percentages required by CMN Resolution 2.682/99 as subsequently amended.

(5) Additional allowance recognized in relation to the minimum percentage required by the regulation in force, based on a proprietary credit risk rating methodology.

(6) As established by CMN Resolution 4.512/16 concerning accounting procedures applicable to the evaluation and recording of the liability provision for financial guarantees provided, the Bank recorded the provision for bank guarantees based on the parameters set by CMN Resolution 2.682/99 as subsequently amended, which requires periodic portfolio analysis and its classification into nine levels, namely "AA" (minimum risk) and "H" (maximum risk - loss).

(7) The allowance for loan losses related to the renegotiation of FGI/PEAC operations which were subject to honor, comprises only the risk exposure to which Banco Daycoval is exposed in these renegotiations.

(1) Allowance for loan losses associated with credit risk, considering the minimum percentages required by CMN Resolution 2,682/99 as subsequently amended.

(2) As established by CMN Resolution 4,512/16 concerning accounting procedures applicable to the evaluation and recording of the liability provision for financial guarantees provided, the Bank recorded the provision for bank guarantees based on the parameters set by CMN Resolution 2,682/99 as subsequently amended, which requires periodic portfolio analysis and its classification into nine levels, namely "AA" (minimum risk) and "H" (maximum risk - loss).

(3) Additional allowance recognized in relation to the minimum percentage required by the regulation in force, based on a proprietary credit risk rating methodology.

f) Renegotiation and recovery of transactions with loan characteristics

(1) Transactions without past-due installments and/or with installments past due up to 14 days.

(2) Transactions with at least one installment past due for more than 14 days.

During the quarter and nine-month period ended September 30, 2024, the Bank recovered credits previously written off as loss, in the amount of R\$190,854 and R\$345,379 (R\$57,054 and R\$144,731, respectively, for the quarter and nine-month period ended September 30, 2023) and Daycoval Leasing recovered the amount of R\$191 and R\$3,000 (R\$1 and R\$569 respectively, for the quarter and nine-month period ended September 30, 2023), recognized in the income statements in line item 'Lending portfolio'.

g) Reconciliation of the breakdown of the finance lease portfolio, at present value, with the account balances:

Under the accounting system adopted by the COSIF chart of accounts, finance lease transactions are recorded according to their nature, which are summarized below:

|  | 09/30/2024       | 12/31/2023       |
|--|------------------|------------------|
| <b>Finance lease transactions</b>                    |                  |                  |
| Finance lease receivable                             | 3,089,682        | 2,778,420        |
| (-) Unearned income from finance lease receivable    | (3,003,790)      | (2,717,706)      |

(1) On March 18, 2024, Daycoval completed its fourteenth issuance of Financial Bills, totaling R\$1.0 billion. The Financial Bills were issued in three series, the first in the amount of R\$284.5 million, with maturity in 2 years; the second in the amount of R\$427.7 million, with maturity in 3 years; and the third in the amount of R\$287.8 million, with maturity in 4 years.

(2) The balance of 'Foreign-currency payables' refers to funding for foreign exchange operations related to export and import financing.

(3) As at September 30, 2024, includes foreign loan transactions, in the amount of US\$345.4 million (US\$494 million as at December 31, 2023), subject to hedge accounting of market risk (Note 8), which carrying amount and fair value amount to R\$979,109 and R\$977,614, respectively (R\$2,218,213 and R\$2,221,958 as at December 31, 2023).

(4) On September 26, 2024, Credit Linked Note was issued in the amount of R\$1.6 billion, with maturity on November 15, 2024.

(5) On January 11, 2024, securities issued abroad were settled in advance, in the amount of US\$100 million, totaling R\$490.5 million.

#### Financial covenants

There was no breach of covenants linked to borrowing agreements with the International Finance Corporation - IFC and the Agence Française de Développement - AFD PROPARGO, recognized in line item 'Borrowings', that could result in the accelerated maturity of the agreements entered into with the Bank and these institutions.

#### Subordinated debts (Bank and Consolidated)

| Instrument Capital   | Funding Instrument | Dates of issuance maturity |           | Issuance amount | % of Index  | Date of BACEN's authorization to comprise capital <sup>(1)</sup> |
|----------------------|--------------------|----------------------------|-----------|-----------------|-------------|--|
| Complementary Tier I | Financial bill     | 10/15/2021                 | Perpetual | 500,000         | 140% of CDI | 10/15/2021   |

(1) The balance is basically comprised of: (i) FGI onlendings in the amount of R\$72,840 for the Bank and Consolidated (R\$76,888 as at December 31, 2023 for the Bank and Consolidated).

18 - PROVISIONS, CONTINGENT ASSETS AND LIABILITIES AND LEGAL OBLIGATIONS

a) Contingent assets

Daycoval and its subsidiaries do not recognize contingent assets as at September 30, 2024 and December 31, 2023.

b) Provisions for lawsuits and legal obligations

The Bank is a party to lawsuits involving labor, civil and tax matters. Provisions are recorded based on the criteria described in Note 3.o. The Bank's Management understands that the provisions recorded are sufficient to cover potential losses on these lawsuits.

The balances of provisions for tax, civil and labor risks recognized and the respective variations as at September 30, 2024 and December 31, 2023, are broken down below:

|  | Bank             |                  | Consolidated     |                  |
|--|------------------|------------------|------------------|------------------|
|  | 09/30/2024       | 12/31/2023       | 09/30/2024       | 12/31/2023       |
| Legal obligations - tax risks <sup>(1)</sup> | 1,183,697        | 2,046,144        | 1,187,230        | 2,048,783        |
| Civil risks                                  | 180,977          | 162,287          | 182,105          | 163,408          |
| Labor risks                                  | 40,005           | 45,873           | 52,018           | 59,487           |
| <b>Total</b>                                 | <b>1,404,679</b> | <b>2,254,304</b> | <b>1,421,353</b> | <b>2,271,678</b> |

During the nine-month period ended September 30, 2024, the provision in the amount of R\$965,400, relating to the lawsuit challenging the non-payment of CSLL increased by 6% for financial institutions, arising from Provisional Act 413/2008 (passed into Law 11,727/2008), made final and unappealable and conversion into income for the federal government of the respective amount of the escrow deposit (Note 18 c), was written off.

(1) During the nine-month period ended September 30, 2024, the escrow deposits were converted into income for the federal government, in the amount of R\$980,732, relating to the lawsuit challenging the nonpayment of CSLL increased by 6% for financial institutions, arising from Provisional Act 413/2008 (passed into Law 11,727/2008), made final and unappealable (Note 18 b).

**d) The Bank is challenging in court the legality of certain taxes and contributions and the related amounts are fully accrued and adjusted:**

**IRPJ**

Challenges the effect from the extinguishment of the monetary adjustment to the balance sheet and deduction of tax incentives (FINAM), the amount accrued totaling R\$8,051 (R\$13,016 as at December 31, 2023). Total escrow deposits for these challenges amounts to R\$8,051 (R\$12,472 as at December 31, 2023).

**CSLL**

Challenges the effect from the extinguishment of the monetary adjustment to the balance sheet and challenges the increase in tax rate from 15% to 20%, prescribed by Law 13,169/15. The amount accrued amounts to R\$177,336 (R\$169,970 as at December 31, 2023) and the total escrow deposits for this lawsuit amount to R\$185,296 (R\$177,460 as at December 31, 2023).

**COFINS**

Challenges the constitutionality of Law 9,718/98. The amount accrued amounts to R\$839,508 (R\$784,674 as at December 31, 2023) and the total escrow deposits for this lawsuit amount to R\$603,736 (R\$580,911 as at December 31, 2023).

**PIS**

Challenges the application of Law 9,718/98 and the tax authorities' requirement of calculation of the PIS tax basis in noncompliance with Constitutional Amendments 01/94, 10/96, and 17/97. The amount accrued amounts to R\$122,601 (R\$118,389 as at December 31, 2023) and the total escrow deposits for this lawsuit amount to R\$124,743 (R\$121,224 as at December 31, 2023).

The provision for other legal liabilities amounts to R\$36,201 (R\$6,250 as at December 31, 2023) and the total escrow deposits for this lawsuits amount to R\$16,371 (R\$6,751 as at December 31, 2023).

**e) Daycoval Leasing has been challenging in courts the following lawsuits:**

**ISS tax execution lawsuits** of the municipalities of Cascavel-PR and Uberlândia-MG, in the adjusted amount of R\$416, classified as remote loss, where the municipalities intend to receive the ISS relating to lease transactions with customers domiciled in these municipalities.

**Case No. 1013470-42,2021,8,26,0068** Civil Writ of Security for the suspension of payment of the ISS assessed by the municipality of Barueri-SP supported by the decision of ADPF 189. Assessed as possible loss. The municipality of Barueri-SP has charged from Daycoval Leasing the amount of R\$6,623, an amount related to the difference of the ISS due in 2016 and 2017, calculated between the prevailing tax rate at the time, determined by the municipality, and a 2% rate, which was considered legally applicable by the judge for the lease service. The adjusted amount is R\$15,576.

Daycoval Leasing is challenging at the courts the PIS and COFINS tax basis, with a favorable injunction for the payment based on the request. As at September 30, 2024, the amount of unpaid taxes, waiting for a favorable judgment of the lawsuits amount to R\$3,532 (R\$2,639 as at December 31, 2023), which were accrued as tax contingencies.

**f) Contingent liabilities assessed as possible losses**

Contingent liabilities assessed as possible losses are not recognized and are represented by civil and labor lawsuits.

As at September 30, 2024, civil lawsuits correspond to an approximate amount of R\$83,305 for the Bank and Consolidated (R\$75,297 for the Bank and R\$75,341 for the Consolidated as at December 31, 2023).

As at September 30, 2024, labor lawsuits amount to R\$985 for the Bank and Consolidated (R\$767 for the Bank and Consolidated as at December 31, 2023).

There are no ongoing administrative proceedings for noncompliance with the rules of the National Financial System or payment of fines, which may have significant impacts on the financial position of the Bank or its consolidated subsidiaries.

19 - TAXES

Taxes and contributions are calculated pursuant to the legislation currently in force. The following rates were levied:

| Taxes and contributions                               | Tax rate    |
|---|-------------|
| Income tax  | 15.00%      |
| Income surtax (on the amount exceeding R\$240,000.00) | 10.00%      |
| Social contribution - financial institutions          | 20.00%      |
| Social contribution - non-financial institution       | 9.00%       |
| PIS <sup>(1)</sup>                                    | 0.65%       |
| COFINS <sup>(1)</sup>                                 | 4.00%       |
| ISS   | up to 5.00% |

(1) The non-financial subsidiaries falling under the non-cumulative computation regime are subject to PIS and COFINS rates of 1.65% and 7.6%, respectively, on operating income, and 0.65% and 4% on financial income. For non-financial subsidiaries subject to deemed, PIS and Cofins rates are 0.65% and 3%.

a) Expenses on taxes and contributions

i. Calculation of income tax (IR) and social contribution on net profit (CSLL):

|  | Bank             |                  | Consolidated     |                  |
|--|------------------|------------------|------------------|------------------|
|  | Quarter ended    |                  |                  |                  |

(1) As at September 30, 2024, Taxes and contributions for offset basically comprise prepaid income tax and social contribution totaling R\$280,941 (R\$321,812 as at December 31, 2023), for the Bank, and R\$289,342 (R\$357,244 as at December 31, 2023), on a consolidated basis.

c) **Deferred income tax and social contribution on temporary add-backs and deductions (asset and liability)**

As required by BACEN Resolution 4,842/20, the recognition of deferred tax assets and liabilities ("Tax credits" and "Deferred tax obligations") arising on temporary differences must meet all the following conditions: (i) the entity has a history of taxable profit or income for income tax and social contribution purposes, recorded at least in three of the past five fiscal years, including the reporting year; and (ii) the entity expects to generate future taxable profits or income for income tax and social contribution purposes in subsequent periods, based on an entity-specific technical study that shows the likelihood of future taxes payable against which the tax credits can be offset within ten years or less.

As at September 30, 2024, the Bank and its subsidiaries have no tax credits not recognized in assets.

d) **Origin of tax credits and deferred tax liabilities**

As at September 30, 2024, the present value of total tax credits is R\$1,430,339 for the Bank (R\$1,645,326 as at December 31, 2023) and R\$1,483,995 for the Consolidated (R\$1,692,941 as at December 31, 2023), and was calculated based on the expected realization of temporary differences, discounted by the average borrowing rate of the Bank and Daycoval Leasing, projected for the corresponding periods.

The earnings projections that allow generating a tax basis take into consideration macroeconomic assumptions, exchange and interest rates, and the forecast of new financial and other transactions. Actual results could differ from those estimates.

20 - EQUITY (PARENT COMPANY)

Capital

As at September 30, 2024 and December 31, 2023, the Bank's capital amounts to R\$3,557,260, being fully subscribed and paid in, represented by 1,890,672,918 registered shares, comprised of 1,323,471,042 common shares and 567,201,876 preferred shares.

b) Breakdown of and variations in capital

|                     | 09/30/2024           | 12/31/2023           |

| <b>Total shares</b> | <b>1,890,672,918</b> | <b>1,890,672,918</b> |

There was no variation in the number of shares during the nine-month period ended September 30, 2024 and year ended December 31, 2023.

c) Interest on capital and dividends

According to the bylaws, the shareholders are entitled to dividends and/or interest on capital corresponding to no less than 25% of profit for the year, adjusted in accordance with the Brazilian corporate law.

Interest on capital is calculated on equity, limited to the variation of the TJLP (long-term interest rate), contingent upon the existence of profit determined before its deduction or retained earnings and earnings reserves.

(1) The National Monetary Council (CMN), through the publication by the Central Bank of Brazil (BACEN) of Resolution 4,693/18, has regulated the conditions and limits for loan transactions with related parties to be carried out by financial institutions and leasing companies, defining the concept of qualified interest as direct or indirect interest in another company, equivalent to or above 15% of the respective shares or units.

The Resolution also established that the sum of the balances of loan transactions with related parties must not exceed 10% of the adjusted equity (PLA), subject to the individual limits of 1% for loans with individuals and 5% for loans with legal entities, as prescribed in Article 7 of the Resolution. These limits must be calculated on the loan transaction date.

b) The table below shows the yield rates and respective terms of the transactions between the Bank and its related parties as at September 30, 2024, as follows:

| Transactions  | Yield rate <sup>(1)</sup> | Up to 3 months | From 3 to 12 months | From 1 to 3 years | From 3 to 5 years | Over 5 years | Total assets (liabilities) |
|---|---------------------------|----------------|---------------------|-------------------|-------------------|--------------|----------------------------|
| <b>Derivative transactions</b>                            |                           | (223)          | (3,712)             | (22,287)          | (5,875)           | (558)        | (32,655)                   |

(1) The yield rates range from: (i) Fixed rates from 0.90% to 15% p.a.; and (ii) Floating rates from 94% to 150% of the CDI.

**c) Key management personnel compensation**

The Annual Shareholders' Meeting sets Management's overall annual compensation, as established by the Bank's bylaws.

For the year ending December 31, 2024, the Annual Shareholders' Meeting held on April 30, 2024 set the overall compensation of up to R\$105 million (R\$100 million for the year ended December 31, 2023).

|  | Bank          |               |
|--|---------------|---------------|
|  | 09/30/2024    | 09/30/2023    |
| Compensation (management fees)               | 74,644        | 72,306        |
| Direct and fringe benefits (healthcare plan) | 1,277         | 1,169         |
| <b>Total compensation</b>                    | <b>75,921</b> | <b>73,475</b> |

The Bank does not offer other short or long-term post-employment or severance benefits to its key management personnel.

**d) Equity interests**

All common and preferred shares are held by Management, as shown below:

|                       | 09/30/2024 | 12/31/2023 |
|-----------------------|------------|------------|
| Common shares (ON)    | 100.00%    | 100.00%    |
| Preferred shares (PN) | 100.00%    | 100.00%    |

23 - FAIR VALUE OF FINANCIAL INSTRUMENTS

Determination and hierarchy of fair value

Daycoval uses the following hierarchy to determine and disclose the fair value of financial instruments:

- Level 1: prices quoted in an active market for the same instrument;
- Level 2: prices quoted in an active market for similar assets or liabilities or based on other valuation method, mainly the "Discounted cash flows" method, in which all significant inputs are based on observable market data; and
- Level 3: valuation techniques in which significant inputs are not based on observable market data.

| Futures market  | 12,240       | -         | 14,975     | -         |

As at September 30, 2024 and December 31, 2023, Daycoval had no financial instrument classified in Level 3.

**b) Fair value measurement method**

Description of the method to measure the fair value of financial instruments, considering valuation techniques that adopt Daycoval's estimates on assumptions that a participant would use to value its instruments.

The prices of marketable securities quoted at market price are the best indicators of its respective fair values. It should be noted that, for certain financial instruments, there is no liquidity of transactions and/or quotes available and, accordingly, it is necessary to adopt estimates of present value and other techniques for fair value measurement. In the absence of price quoted by ANBIMA - Brazilian Financial and Capital Markets Association, the fair values of government bonds are determined in view of the rates or prices given by other market agents that trade such securities. The fair values of debt securities of companies, when not available in the active market, are calculated by discounting estimated cash flows, based on interest rates adopted in the market and applicable to each payment flow or maturity of these debts. The fair values of the units in investment funds are made available by their respective managers.

- **Swaps:** cash flows are discounted at present value on the basis of interest curves or other indices that reflect the risk factors, at prices of derivatives quoted in B3, of Brazilian public securities in secondaries or derivatives and marketable securities traded abroad. These interest curves are used to obtain fair value of swaps.
- **Futures and Forwards (NDFs):** quotes on stock exchanges or based on the same criteria of fair value measurement of swap contracts.
- **Options:** determined in view of mathematic models using market data such as implicit volatility, interest rate curve and fair value of the underlying

**Lending, issuances abroad and payables for loans**

These are calculated by discounting estimated cash flows at market interest rates.

**c) Fair values of financial assets and liabilities measured at amortized cost**

The fair value of financial assets and liabilities recorded at amortized cost is estimated by comparing the current market interest rate of similar financial instruments. The estimated fair value is based on discounted cash flows at present value, using the observable market interest rate for financial instruments with similar credit risk and maturity. For debt instruments quoted, the value is determined based on market prices. For securities issued whose market price is not available, a discounted cash flow model is used on the basis of the appropriate future interest rate curve for the remaining of the term up to maturity. For other instruments subject to floating rate, an adjustment is made to reflect changes in credit spread required since the date the instrument was initially recognized.

Comparison of the value of the financial instruments recorded at amortized cost and the respective estimated fair value:

| Accounting classification   | 09/30/2024     |            | 12/31/2023     |            |
|---|----------------|------------|----------------|------------|
|   | Amortized cost | Fair value | Amortized cost | Fair value |

| <b>Financial liabilities measured at amortized cost:</b>                                |                |            |                |            |
| Local funding (interbank deposits, time deposits and issuances of securities in Brazil) | 47,231,569     | 47,334,630 | 45,546,904     | 47,726,431 |
| Borrowings and onlendings   | 2,931,135      | 2,787,999  | 2,899,955      | 2,920,511  |

The financial instruments measured at amortized cost, for purposes of assessing its potential fair value, were classified as "Level 2" instruments. This valuation considered the prices quoted in an active market for similar assets or liabilities or based on another valuation method, mainly the "discounted cash flows" method, in which all significant inputs are based on observable market data.

Daycoval believes that the risk management is an important instrument for adding value to the Prudential Conglomerate's entities, shareholders, employees and clients, besides contributing to strengthen the corporate governance and the internal control environment. The Governance, Risk and Compliance (GRC) department, which reports to the Senior Management, plays an institutional role towards the enhancement of the operating, market, liquidity, credit, compliance, social and environmental and capital risk management processes, procedures, criteria and tools, in order to ensure a high level of security in all its operations on an integrated basis.

In addition to complying with the requirements of CMN Resolution 4,557, Daycoval believes that the integrated management of risks is a key instrument for disseminating a behavior that encourage the establishment of a culture oriented to manage these risks. Accordingly, it establishes strategies and objectives to reach optimal balance between the growth goals and return on investments and the underlying risks, thus allowing to explore its funds effectively and efficiently in pursuing the entity's objectives.

The structuring of the process of Integrated Management of Corporate Risks contributes to the better Corporate Governance, which is one of Daycoval's strategic focus, in line with the guidelines of Management, Integrated Risk and Capital Management Executive Committee, to steer actions in order to ensure compliance with prevailing regulation, guarantee the implementation of actions and access to the information necessary for such management.

The responsibility for risk identification and management is structured according to the concept of three lines of defense, in order to map the risk events of internal and external nature that may affect the objectives of the business units. In this scenario, the Risk Committee and risk managers play an important role in the various areas of the Bank, in order to ensure the Bank's continuing and sustainable growth.

The Bank's Risk Managers identify, measure, control, evaluate and manage the risks, ensuring the consistency between the risks assumed and the acceptable risk level defined by the Institution, as well as report the exposure to the Management, business areas and regulatory bodies. Within this context, the risk appetite defines the nature and level of the risks acceptable for the institution and the risk culture guides the necessary behavior to manage these risks. Daycoval invests in the development of risk management processes supported by corporate values (agility, safety, integrity, soundness, relationship and sustainability) which strengthen the employees' responsibility for the business sustainability.

**a) Capital management**

The Board of Directors, Daycoval's ultimate capital management body is responsible for approving the Capital Management Policy, the acceptable capital level, approving the capital plan and determining when the contingency plan must be implemented, in addition to revising the capital management policies and strategies, as well as the capital plan, at least annually, so as to determine its compatibility with its strategic planning and the market conditions. The explanatory notes on capital have been prepared in accordance with BACEN regulations to determine its capital sufficiency on an annual basis and are shown below:

**i. Minimum capital requirements (Basel Accord)**

The minimum capital requirements of Banco Daycoval are presented as a Based Ratio by dividing the Regulatory Capital (PR) by the Minimum Capital Required, consisting of the sum of portions of risk-weighted assets or RWA, multiplied by the percentage of minimum capital requirement, which is currently 8.00%. These minimum requirements are an integral part of a set of standards announced by BACEN, in order to implement global capital requirements, known as Basel III and, are expressed as indices that link the capital available and the risk-weighted assets (RWA).

Basel III rules seek to improve the quality of financial institutions' capital, restricting the use of financial instruments not capable of absorbing losses, and deducting assets that may threaten the value of capital due to low liquidity, dependence on future profits for realization or difficulty to measure value. These instruments include tax credits, intangible assets and investments in non-subsidiaries, especially those operating in the insurance industry.

The Regulatory Capital ("PR") is defined as the sum of Tier I (principal and complementary capital) and of Tier II, calculated on a consolidated basis, considering the institutions comprising the Prudential Conglomerate which, for Banco Daycoval, include the Bank's operations, its branch abroad and Daycoval Leasing.

CMN Resolutions 4,955/21 and 4,958/21 establish the criteria and procedures to calculate the minimum requirements for regulatory capital ("PR"), of Tier I, of Principal Capital and of Additional Principal Capital, at the following percentages:

|   | Minimum % of capital |               |
|---|----------------------|---------------|
|   | 09/30/2024           | 12/31/2023    |
| <b>Minimum Regulatory Capital ("PR")</b>    | <b>8.00%</b>         | <b>8.00%</b>  |
| <b>Tier I</b>                               | <b>6.00%</b>         | <b>6.00%</b>  |
| Principal capital                           | 4.50%                | 4.50%         |
| Complementary capital                       | 1.50%                | 1.50%         |
| <b>Tier II</b>                              | <b>2.00%</b>         | <b>2.00%</b>  |
| <b>Additional principal capital ("ACP")</b> | <b>2.50%</b>         | <b>2.50%</b>  |
| ACP - Conservation                          | 2.50%                | 2.50%         |
| ACP - Countercyclical <sup>(1)</sup>        | 0.00%                | 0.00%         |
| ACP - Systemic <sup>(2)</sup>               | 0.00%                | 0.00%         |
| <b>Total capital required (PR + ACP)</b>    | <b>10.50%</b>        | <b>10.50%</b> |

<sup>(1)</sup> Pursuant to Bacen Circular 3,769/15, Art. 3, the percentage of Countercyclical ACP is equal to 0%.

<sup>(2)</sup> The Systemic Importance Additional (Systemic ACP) is determined on the basis of criteria set by BACEN Circular 3,768/15. The percentage of Systemic ACP is up to 2%, provided that the reason between total exposure, pursuant to Article 2, item II, of BACEN Circular Letter 3,748/15, as at December 31 of the penultimate year in relation to the base date of calculation, and the Brazilian GDP, is higher than 10%, otherwise the percentage of Systemic ACP is equal to 0%.

The breakdown of the Regulatory Capital, Minimum Required Capital, risk-weighted assets ("RWA") and Basel ratio is as follows:

|   | 09/30/2024        | 12/31/2023        |
|---|-------------------|-------------------|
| <b>Regulatory capital</b>                                       | <b>8,133,840</b>  | <b>7,152,977</b>  |
| <b>Regulatory capital – Tier I</b>                              | <b>8,133,840</b>  | <b>7,152,977</b>  |
| <b>Principal capital</b>  | <b>7,066,490</b>  | <b>6,110,214</b>  |
| Equity  | 7,089,840         | 6,136,380         |
| Prudential adjustments - CMN Resolution 4,955/21                | (23,350)          | (26,166)          |
| <b>Complementary capital</b>                                    | <b>1,067,350</b>  | <b>1,042,763</b>  |
| Perpetual financial bills (Note 16.d)                           | 1,067,350         | 1,042,763         |
| <b>Minimum required capital (RWA x 8%)</b>                      | <b>4,400,900</b>  | <b>4,199,357</b>  |
| <b>Risk-weighted assets (RWA)</b>                               | <b>55,011,245</b> | <b>51,585,716</b> |

| DRC capital component   | 623,974           | -                 |
| <b>Operational risk - RWAopad</b>                               | <b>5,904,169</b>  | <b>2,912,290</b>  |
| <b>Basel ratio</b>  | <b>14.8%</b>      | <b>13.9%</b>      |
| Basel ratio - Tier I  | 14.8%             | 13.9%             |
| Asset exposure to the interest rate in the banking book (IRRBB) | 186,446           | 179,166           |
| <b>Surplus regulatory capital</b>                               |                   |                   |
| On minimum requirement  | 84.8%             | 73.3%             |
| On total requirement  | 40.8%             | 32.1%             |

(1) The procedures to calculate the portion of risk-weighted assets related to the credit risk exposures subject to calculation of capital requirement based on the standardized approach (RWACPAD) are established by BCB Resolution 229, of May 12, 2022.

**b) Market risk**

Market risk is the risk of incurring losses due to fluctuations in the fair values of the positions held by a financial institution, including the risks to which the transactions subject to exchange rate changes, interest rates, stock prices, and commodity prices are exposed.

**i. Main market risks to which Daycoval is exposed:**

**Interest rate risk**

Possible interest rate fluctuations that could adversely affect the value of the financial instruments. This risk is classified as follows:

- Parallel change risk: exposure of profit and loss to parallel changes in the interest curve, resulting in equal differentials for all terms;
- Risk of changes in curve slope: exposure of profit or loss to the changes in the timeframe structure of the interest curve, resulting in changes in pending or curve form.

**Currency price risk**

The exposure of foreign currency positions to the changes in the exchange type.

**Price risk**

Defined as the sensitivity of the amounts of outstanding securities positions in relation to adverse fluctuations in their market prices. This risk is classified as follows:

- Generic or systematic risk: exposure of the position value to the changes in prices in general;
- Specific risk: exposure not related to the changes in prices in general but related to the issuer's own characteristics.

**ii. Market Risk management methodologies**

**Value-at-Risk (VaR)**

The Value-at-Risk or VaR is the benchmark used in the market and a measure that properly summarizes the market risk exposure from the trading activities (trading portfolio). It represents the potential maximum loss in the market value, considering a defined certainty level (confidence level) and time horizon.

Among the different methodologies available to calculate the VaR (parametric, historical simulation and Montecarlo simulation), Daycoval understands that the parametric methodology is the most adequate to the characteristics of the positions of its trading portfolio.

**Parametric methodology**

It is based on the normality statistics in the distribution of probabilities related to the risk factor changes, based on the volatilities and correlations to determine the potential change of a position. Accordingly, the risk factors must be identified and the positions must be allocated to the defined vertices. Subsequently, the volatilities of each risk factor and the correlations to the positions are applied.

**Banking Book**

Managing the risk of variation in interest rates in financial instruments classified as Interest Rate Risk in the Banking Book (IRRBB) is based on the following metrics:

- $\Delta$ EVE (Delta Economic Value of Equity): difference between the present value of the sum of flows of repricing of instruments subject to IRRBB in a base scenario and the present value of the sum of repricing of flows of these instruments in a shock scenario of interest rates;
- $\Delta$ NII (Delta Net Interest Income): difference between the result of trading of instruments subject to IRRBB in a base scenario and the result of trading of these instruments in a shock scenario in interest rates.

**iii. Stress test**

Stress test It is a supplementary tool to the VaR measures used to measure and assess the risk to which the Bank is exposed. It is based on the definition of a set of movements for certain market variables and the determination of the effects from the movements on the portfolio value. The stress test results are periodically analyzed by the Market Risk Committee.

**iv. Scenario analysis**

The purpose of the scenario analysis is to assist the senior management in understanding the impact caused by certain events on the Bank's portfolio. Using a risk analysis tool that defines the long-term scenarios that affect the parameters or variables defined for risk measurement.

Differently from the stress tests, which consider the impact from the changes in the market risk factors on the short-term portfolio, the scenario analysis determines the impact from more complex events on the Bank as a whole.

In the definition of the scenarios, the following factors are considered:

- The experience and expertise of the persons responsible for the areas involved;
- The proper number of relevant variables and their explanation power in order to avoid unnecessary problems in the analysis and interpretation of the results.

As a risk management governance practice, Daycoval and its subsidiaries adopt a continuous risk management process that involves controlling all the positions exposed to the market risk. The market risk limits are determined according to the characteristics of the operations, which are segregated in the following portfolios:

- Trading portfolio: refers to transactions with financial instruments and commodities, including derivatives, that are held for the purpose of being actively traded or to hedge other financial instruments comprising the trading portfolio. These held-for-trading transactions are those intended for the resale, obtain gains from actual or expected price fluctuations, or arbitrage.
- Banking portfolio: refers to all transactions that are not classified in the trading portfolio and are represented by transactions arising from the Bank's business lines.

The segregation above is related to the way Management manages Daycoval's business and its exposure to the market risks, in conformity with the best market practices, the transaction classification criteria set forth in prevailing regulations issued by BACEN and the Basel Accord. Therefore, according to the nature of the activities, the sensitivity analysis was conducted for the trading and banking portfolio operations, as they represent significant exposures for Daycoval's profit or loss.

The table below shows the sensitivity analysis of the Trading and Banking books as at September 30, 2024 and December 31, 2023:

| Risk factors              | 09/30/2024     |                 |                 | 12/31/2023      |                  |                  |
|---------------------------|----------------|-----------------|-----------------|-----------------|------------------|------------------|
|                           | Scenarios      |                 |                 | Scenarios       |                  |                  |
|                           | 1              | 2               | 3               | 1               | 2                | 3                |

The sensitivity analysis was carried out considering the following scenarios:

- Scenario 1: refers to the stress scenario considered probable for the risk factors and its preparation is based on available market inputs (B3 S.A., ANBIMA, etc.). Accordingly, the risk factors considered were: (i) US\$1.00=R\$6.19 exchange rate (US\$1.00=R\$5.51 as at December 31, 2013); (ii) fixed interest rate of 14.90% p.a. (12.85% p.a. as at December 31, 2013); Ibovespa of 108,089 points (110,032 points as at December 31, 2013); (iv) foreign currency coupon of 7.98% p.a. (8.71% p.a. as at December 31, 2013); and (v) price index coupon of 7.15% p.a. (8.16% p.a. as at December 31, 2023).

- Scenario 2: a 25% stress of the risk factors was considered for this scenario. Accordingly, the risk factors considered were: (i) US\$1.00=R\$7.74 exchange rate (US\$1.00=R\$6.89 as at December 31, 2013); (ii) fixed interest rate of 18.63% p.a. (16.06% p.a. as at December 31, 2013); (iii) Ibovespa of 81,067 points (82,524 points as at December 31, 2013); (iv) foreign currency coupon of 9.98% p.a. (10.89% p.a. as at December 31, 2013); and (v) price index coupon of 8.94% p.a. (10.20% p.a. as at December 31, 2023).
- Scenario 3: a 50% stress of the risk factors was considered for this scenario. Accordingly, the risk factors considered were: (i) US\$1.00=R\$9.29 exchange rate (US\$1.00=R\$8.27 as at December 31, 2013); (ii) fixed interest rate of 22.35% p.a. (19.28% p.a. as at December 31, 2013); (iii) Ibovespa of 54,045 points (55,016 points as at December 31, 2013); (iv) foreign currency coupon of 11.97% p.a. (13.07% p.a. as at December 31, 2013); and (v) price index coupon of 10.73% p.a. (12.24% p.a. as at December 31, 2013).

It is worth mentioning that the results shown in the tables above reflect the impacts for each scenario projected on a static position of the portfolio as at September 30, 2024 and December 31, 2023. The market dynamics produces constant changes in this position and thus it does not necessarily reflect the actual position on the date these interim financial statements are disclosed. Additionally, as mentioned above, there is a continuous management of the trading and banking portfolios' positions to mitigate the risks associated to such portfolios, according to the strategy defined by Management and, when there are indications of deterioration of a certain position, proactive actions are taken to minimize possible adverse impacts and maximize the risk/return ratio for the Bank.

#### v. Backtesting

Backtesting is the comparison between the ex-ante gain/loss and the effective gain/loss. The purpose is to analyze the risk model efficiency adequacy. For purposes of backtesting, effective gains/losses are used for each business unit.

#### c) Liquidity risk

Liquidity risk is the risk of mismatches between tradable assets and payable liabilities—payables and receivables mismatches—that might affect the payment ability of the Bank, taking into consideration the different currencies and settlement terms of its assets and liabilities.

The main liquidity risk factors can have external or internal origin:

##### i. Main external risk factors:

- Macroeconomic factors, both national and international;
- Liquidity policies set by the regulator;
- Situations where the confidence and, consequently, the system liquidity was affected;
- Credit agencies' ratings: sovereign risk and organization risk;
- Lack of funds in the market.

##### ii. The main internal risk factors are:

- Bank's risk appetite and definition of the acceptable liquidity level;
- Terms and rates mismatches caused by the characteristics of the traded products and services;
- Concentration policy, both in funding and credit granting;
- Covenants assumed by the Institution: financial, economic and related to environmental management;
- Increase in the number of early redemptions of funds raised or transactions with immediate or grace period liquidity clauses;
- Exposure to illiquid or low liquidity assets;
- Leverage.

This type of risk is particularly important at the financial institutions, as economic / political / financial events and even changes in the perception of confidence or expectations may quickly turn into major solvency issues. This is a risk that needs to be constantly managed, with extreme care with respect to matches and terms between receivables and payables; either at the short, medium or long term.

The controls over liquidity risks are frequently performed in portfolio. Accordingly, the balance between obligations and receipts from institution's books is analyzed. In addition to an in-depth analysis of cash flows, extreme scenarios of liquidity risks are considered, together with performance triggers.

#### d) Credit risk

Risk associated with possible losses from the borrower's or counterparty's non-compliance with respective obligations as agreed upon; the devaluation, reduction of remunerations and expected gains on financial instruments from the deterioration of credit quality of the counterparty, the intervening party or of the mitigating instrument; the restructuring of financial instruments; or costs of recovery from exposures characterized as problematic assets.

##### i. Classification of transactions:

Daycoval adopts consistent and verifiable criteria to classify its loan transactions that combine the borrower's economic, financial, personal and market information with the accessory guarantees provided to the transaction. Based on this information, minimum allowances will be recognized to cover the risks assumed, as prescribed by BACEN Resolution 2,682/99, as subsequently amended, from the Central Bank of Brazil.

##### ii. Daycoval credit scoring models:

Models designed through statistic approach and used to classify risks in the credit granting process, after applying the credit policies previously analyzed and approved with customer data, as well as operations verified and relevant. It should also be noted that the assets underlying financing, for purposes of developing a score model, are classified and a risk classification is obtained for each product.

**Treasury - financing of government bonds, over-the-counter derivatives and brokers**

Low-risk strategies are adopted in the structuring of operations based on the exposure limit analysis against the counterparties' equity, trading agreements previously agreed and according to the objective technical assessment conditions of the counterparties' credit risk and strict selection of brokers related to prime banks to deal with the positions allocated.

**e) Operational risk**

Operational risk is the possibility of an entity incurring losses due to failure, deficiency or ineffectiveness of internal processes, people and systems, or external events. It includes the legal risk associated to inadequacy or deficiency in contracts entered into by the Bank, as well as penalties due to noncompliance with legal provisions, and compensation paid for damages caused to third parties as a result of the activities conducted by the Bank.

In managing operational risks, the Bank relies on a qualified risk management framework to identify, control and identify operational risks, as well as to disseminate the risk mitigation culture. In these processes, the Governance, Risk and Compliance (GRC) area works in synergy with the managers of the executive areas, in the application of the methodologies and tools used in the corporate analysis of the following factors:

- Measurement of the risk impact;
- Assessment of the risk frequency;
- Calculation of the risk severity (impact vs. likelihood);
- Measurement of the control effectiveness.

We believe that this activity is inherent in the processes adopted by all areas, resulting in the design of a Risk and Control Matrix, which presents a detailed overview of the exposure to the operational risk, being possible to analyze the risks with greater level of exposure to, if necessary, align the mitigation action plan.

For purposes of business continuity, the strategy defined is to keep all business areas and lines in operation, including relevant services provided by third parties, in contingency. In order to fulfill the resolution of senior management, the business continuity management must be implemented to ensure the continuity of the activities and limit losses arising from a possible suspension of the critical business processes.

**f) Compliance risk**

Compliance risk is the risk associated to legal or regulatory sanctions, financial losses or even reputation losses arising from the lack of compliance with legal and regulatory provisions and codes of conduct.

At Daycoval, the monitoring of activities for compliance with laws and regulations is carried out by the Governance, Risk and Compliance (GRC) area to ensure the compliance with the Bank's and Conglomerate's deadlines and objectives, as well as to manage, on integrated basis, this risk together with the other risks, ensuring the effectiveness of the activities related to the compliance activity for compliance with regulatory, legal and internal rules.

**g) Social, environmental and climate responsibility**

Refers to the possibility of incurring losses arising from social, environmental and climate damages, related to each entity individually, comprising Daycoval Group, in accordance with the principles of relevance and proportionality.

The Social, Environmental and Climate Responsibility Policy (PRSA) establishes guidelines that guide the Daycoval Conglomerate in terms of social, environmental and climate aspects, proportional to its business model, the nature of transactions and the complexity of products, services, activities and processes, as well as in the relationship with stakeholders, and provides for the governance framework to ensure the continuing assessment and management of the social, environmental and climate risk, considering the principles of significance, proportionality and efficiency.

The actions to mitigate the social, environmental and climate risk are carried out through process, risk and control mapping, monitoring of new standards related to the matter and, management of the social, environmental and climate risk carried out by the first line of defense in its daily operations, relying on the support, as the case may be, of the GRC and legal areas.

The governance framework also relies on the Executive Social, Environmental and Climate Risk Committee, which main duty is to provide instructions on the institutional principles that guide the social, environmental and climate actions in the business and relationship with stakeholders, aiming at ensuring the appropriate integration with the PRSAC.

## 25 - EMPLOYEE BENEFITS

### Education incentive and profit sharing programs

As part of its strategy of being ranked among the best companies to work in Brazil, the Bank invests in the training and welfare of its employees, through programs involving college and MBA and postgraduate students, participates in the federal government's Minor Apprenticeship program, and implements its own internship programs.

The Bank offers a profit sharing program to all employees. This program is designed in partnership with the Union of Bank Employees and is tied to performance goals annually evaluated, using the criteria according to the Performance Evaluation program.

## 26 - OTHER INFORMATION

### a) Asset management

Banco Daycoval S.A. and Daycoval Asset Management are responsible for the management, administration, controllership, bookkeeping and custody of third-party funds through investment funds, investment clubs and managed portfolios, whose net assets as at September 30, 2024 totaled R\$132.4 billion (R\$95.6 billion as at December 31, 2023).

### b) Insurance coverage against losses

Despite the low risk exposure as a result of their assets not being physically concentrated, the Bank and its subsidiaries insure their assets at amounts considered sufficient to cover probable losses.

### c) Acquisition of BMG Seguros

On September 5, 2024, Banco Daycoval entered into an agreement for the acquisition of BMG Seguros S.A. through the insurance company Dayprev Vida e Previdência S.A. Completion of the acquisition is subject to prior approval by the Central Bank of Brazil (Bacen), the Private Insurance Authority (SUSEP) and has already been approved by the Administrative Council for Economic Defense (CADE).

### d) Relationship with Auditors

In accordance with CVM Resolution CVM 162, of July 13, 2022, we inform that the firm engaged to review the Bank's interim financial statements for the quarter and nine-month period ended September 30, 2024, has not provided any other services to the Bank and the Group companies higher than 5% of total fees relating to independent audit services.

Our policy, including our subsidiaries, to engage non-audit services from our independent auditors, is based on applicable regulation and internationally accepted principles that preserve the independence of the auditor. These principles consist of: (a) the auditor must not audit its own work; (b) the auditor must not exercise managerial functions in its client; and (c) the auditor must not promote the interests of its client.

The acceptance and provision of professional services not related to the audit of the financial statements by its independent auditors in the quarter and nine-month period ended September 30, 2024, did not affect the independence and objectivity in the conduction of the external audit services performed at Banco Daycoval and its subsidiaries, as the principles set out above were met.

### e) Audit Committee

The Audit Committee, established in and operating since the first half of 2009, pursuant to Resolution 3,198 of May 27, 2004, current Resolution 4,190 of May 27, 2021, both from the National Monetary Council, is responsible for assessing the quality and integrity of the Bank's financial statements, checking the compliance with legal and regulatory requirements, for the work, independence and quality of the work with the external auditors, the work and quality of the internal audit and the reliability and efficiency of the Bank's internal control and risk management systems. The current composition of this Committee was ratified by the Central Bank of Brazil on June 14, 2024.

## 27 - EVENTS AFTER THE REPORTING PERIOD

- a) According to the Amendment to the Articles of Incorporation, dated October 18, 2024, the Bank decided to increase the capital of Daycoval Corretora de Títulos e Valores Mobiliários Ltda. (a subsidiary of Banco Daycoval S.A.), amounting to R\$200.8 million. This decision is subject to approval by the Central Bank of Brazil.
- b) On September 26, 2024, the Central Bank of Brazil granted authorization for Daycoval Leasing - Sociedade de Arrendamento Mercantil S.A. (a subsidiary of Banco Daycoval S.A.) to operate. Capital amounting to R\$50 million was fully subscribed and paid in on October 31, 2024.
