01

Banco Daycoval reaches AA+.br in national scale and Ba1 in global scale by Moody's

The upgrade reflects the bank's consistent financial performance across different market conditions and economic cycles, evidenced by the diversification and expansion of its revenue base. In addition to its traditional credit operations, Daycoval has been expanding its activities in treasury, foreign exchange, insurance, asset management, and investment banking, strengthening its risk profile. According to the agency, Daycoval has demonstrated discipline in growing its credit portfolio, maintaining a conservative risk appetite approach. This strategy has resulted in improved asset quality and increased profitability, while also consolidating its diversified funding structure both in the domestic market and with international investors, including multilateral agencies. The bank's credit profile reflects its solid franchise in the domestic market, offering a broad range of products and services to the corporate and small and medium-sized enterprise (SME) segments.

03

Daycoval Asset ranked as the 2nd Best Fixed Income Asset Manager in the Specialist Managers group by Guia FGV de Fundos de Investimentos 2023

Guia de Fundos FGV is the most traditional in the Brazilian financial market. Produced by FGVCEF – Centro de Estudos em Finanças da FGV/SP – since 2000, it represents an essential reference for investors, recognizing the best practices in fund management and managers across the country.

02

Funding of U\$ 460 million raised with IFC

Daycoval raised \$460 million this quarter with IFC, a member of the World Bank Group. This is a syndicated financing—comprising \$150 million from IFC's own resources and an additional \$310 million from 14 financial institutions—aimed at stimulating credit for micro, small, and medium-sized enterprises (MSMEs), with a focus on female entrepreneurship and the Legal Amazon region.

This project is considered IFC's first investment in a commercial bank in Brazil with a pre-defined allocation for the Legal Amazon region

“This fundraising reinforces Banco Daycoval's role as a transformative agent in the Brazilian financial market, contributing to sustainable economic development and social inclusion in historically underserved regions and sectors” – Paulo Saba, Treasury and Investor Relations Director

S&P Global Ratings

Sovereign	Global	National
		
BB	BB-	brAA+

Key Strengths

- Profitability metrics generally higher than those of its competitors.
- Track record of solid management and expertise in collateral management.
- Healthy asset quality metrics.

Key Risks:

- Increasing competition from large banks and new entrants.
- Challenging economic conditions in Brazil.
- Strong reliance on institutional investors for funding.

Fitch Ratings

Sovereign	Global	National
		
BB	BB	AA+ (bra)

Key Strengths

- Segmented and Established Franchise with Robust Results.
- Sustainable Business Performance.
- Moderate Risk Profile.
- Well-Managed Asset Quality Risks.
- Improved Profitability.
- Adequate Capitalization.
- Stable Funding and Liquidity.

Key Risks:

- Brazilian economic growth much slower than expected.
- Risk of deterioration in asset quality.

MOODY'S

Sovereign	Global	National
		
BB	Ba1	AA+.br

Key Strengths

- Traditional lender for companies and SMEs, with a highly respected management team and strong risk governance.
- Stability in the main revenue source, supported by portfolio granularity and product diversification.
- Adequate capitalization.
- Diversified funding structure that supports the expansion of its retail portfolio (with longer terms), avoiding term mismatches.

Key Risks:

- Increasing competition in the SME and payroll loan businesses is likely to pressure margins.
- Growing pressure on asset risk from the SME portfolio as delinquency in the segment rises across the industry.
